A Change In View

There's nothing like a new perspective to change your attitude

When Junior is bored, he simply stands on his head for a new slant at things. The floor flips to the ceiling, with tables and chairs hanging from it, and people walk upside-down. At least that's the way it looks to him.

It is a good idea to gain a different perspective and get a new slant on things around you. But you don't have to stand on your head to do it. Instead identify yourself with a church. Take your family and

go regularly to worship. You will find a new perspective. Genuine values will keep their importance; unimportant things will diminish. Today's life will be happier; tomorrow's full of hope. Nothing is upside-down, but everything claims its rightful place when you view
